

**Notice of cyber security incident**

KCA Deutag Alpha Limited (KCA Deutag or the Group), today reports that it is currently managing a cyber security incident after detecting unauthorised access to its back office systems.

KCA Deutag is taking appropriate actions in relation to this incident, including the appointment of external cyber security experts whose investigations are on-going. Management is working with those experts to enable the safe recovery of the Group's systems and will seek to complete this work as quickly as possible to minimise any potential impact on the business.

The Group is making appropriate notifications to the relevant regulators and law enforcement agencies, including the Information Commissioner's Office.

A further update will be made, as appropriate.

**ENDS**
